

IN THE DRAWINGS:

Please replace sheet 12 of 19 with the Replacement Sheet attached hereto.

REMARKS

The Notice to File Corrected Application Papers reported an error in the numbering of figures, finding two drawings labeled “FIGURE 12D”.

Amendments to the Drawings

In response, applicants propose amendments to the drawings on sheet 12 of 19 to change the second occurrence of label “FIGURE 12D” to read “FIGURE 12E”, and to change the original label “FIGURE 12E” to read “FIGURE 12F”. A Replacement Sheet showing these changes is attached hereto.

In the Replacement Sheet, applicants take this opportunity to remove from FIGS. 12B, 12C and 12F the callout “165” and lines pointing to dimensions “J” and “T”. These callouts are unnecessary because the specification simply refers to those dimensions as “J” and “T”. In addition, the callout “165” is being used in FIG. 12D for a different purpose to indicate the dashed “input line”. Applicants request entry of the drawing amendments.

Amendments to the Specification

The drawing amendments necessitate that amendments also be made to the specification. Applicants propose the above amendments so that all references to FIGS. 12A through 12F are consistent with what is shown in the drawings. Applicants request entry of these amendments.

Conclusion

Applicants believe that no fees are due for filing this amendment. In other papers submitted to the USPTO, applicants have authorized the USPTO to charge issue and publication fees for this application. Applicants believe that no other fees are due, however, if any additional fees are in fact due, please charge the same to Deposit Account No. 504480 (Order No. IGT1P083).

Respectfully submitted,
Weaver Austin Villeneuve & Sampson LLP
